NOTES TO FINANCIAL STATEMENTS

1. Organization and Significant Accounting Policies

A. Nature of Organization and Ownership

Priority Health Government Programs, Inc., (PHGP or the Plan) a nonprofit HMO established effective October 1, 2002, is a wholly owned subsidiary of Priority Health. Priority Health Government Programs, Inc. has over 50,700 Medicaid and MICHild members as of December 31, 2007. PHGP offers provides coverage for medical, hospital and other health care services to Medicaid and MICHild subscribers as a health insurance product in conjunction with the State of Michigan's programs.

Priority Health is a nonprofit, nontaxable health maintenance organization owned primarily by Spectrum Health (Priority Health's 95% shareholder), as well as Munson Healthcare and Healthshare, Inc.

The agreements with certain participating providers call for reimbursement at various capitated rates or percentages of fees, less applicable member copayments, coinsurance or deductibles, on a current basis. The agreements provide for contingent reimbursement to participating providers based upon the results of operations within their defined risk pool. In the event the risk pool's utilization of medical costs is less than budgeted levels, the providers may share in the surplus, as defined in their respective agreements, and be eligible for the return of previously withheld fees. In addition, the Plan provides for a quality incentive to be paid to certain providers contingent upon achieving specified quality goals.

PHGP's statutory-basis financial statements are prepared in accordance with accounting practices prescribed or permitted by the State of Michigan Office of Insurance and Financial Services (OFIS). The National Association of Insurance Commissioners (NAIC) revised the *Accounting Practices and Procedures Manual* in a process referred to as Codification, effective on January 1, 2001. It is the intent of the NAIC to publish a new *Accounting Practices and Procedures Manual* annually. The latest version of the manual is as of March 2007.

The NAIC manual requires insurers to fully disclose and quantify any deviations from the practices and procedures adopted in the manual. HMOs must prepare their financial statements in accordance with this guidance except as modified by OFIS. OFIS provided a transition period (a prescribed practice) for certain statements of statutory accounting principles (SSAPs) found in the NAIC Accounting Practices and Procedures Manual. There is a full adoption and application of applicable SSAPs.

In 2007, the State of Michigan included within premium payments to the Plan various transfer programs. This requires the Plan to pass certain amounts collected as part of premium from the State of Michigan to various health care providers, as determined by the State. Although there is no risk associated with the transfer, OFIS requires the Plan to account for the premium receipts as revenue and the subsequent hospital pass through as medical expense. For 2007, this results in additional revenue and medical expense of \$20,029,397 and claims unpaid liability of \$3,035,505. There is no impact to net income.

B. Use of Estimates

The preparation of financial statements of HMOs requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known, which could impact the amounts reported and disclosed herein.

C. Accounting Policy

1. All short-term investments have been classified in accordance with National Association of Insurance Commissioners (NAIC) guidelines and are stated at amortized cost for financial statement disclosure.
2. Investments consist of bonds that are carried at amortized cost. The cost of bonds is adjusted for amortization of premiums and discounts to maturity using a level-yield method. Realized gains and losses are determined using the specific identification method and are included in operations. The fair value of investments is determined based upon quoted market prices. Currently, the Plan does not hold any long term bonds or other investments outside of the statutory requirements.
3. Common Stocks are Not Applicable
4. Preferred Stocks are Not Applicable
5. Mortgage loans are Not Applicable

NOTES TO FINANCIAL STATEMENTS

9. Derivatives are not held by the Plan and therefore this disclosure is Not Applicable.
10. and 11. Under traditional arrangements, health care costs are recognized as expenses when services are rendered including, based on historical data, an estimate of costs incurred, but not reported at the balance sheet date. Under capitation arrangements, health care costs are recognized when accruable under the providers' respective agreements. Adjustments to previously rendered claims reserve estimates are reflected in the statement of operations in the period in which the estimates are revised. Such reserve adjustments consist of restatements of claims estimates and changes in margin associated with these estimates and could be material in the future. Given the nature of the health care costs and provider billing requirements, as defined by the participating providers' agreements, amounts accrued at year-end are paid predominantly in the following year.
12. The Company has not modified its capitalization policy from the prior period.

2. Accounting Changes and Correction of Errors

A. Material Changes in Accounting Principles

The Plan does not have any material changes in accounting principles and/or correction of errors in the reporting period.
